		7 : 8 }	
		9	
		10	
	_	12 13 Q. Okay. Have you ever expressed an opinion about	
		14 integration of browsers into operating systems?	
	1	15 A. Well, it's consistent with my view that the 16 kinds of things you want to do with local and	
		17 distant information have to be done uniformly with a	
		18 similar or identical set of tools. I have certainly 19 thought about, but not in a study way, how this	
		20 might happen. 21 ram not really interested on how it might	
		22 happen. It could happen by a shared front end. It	
		could happen through shared middle-level granularity modules. It could happen through the design of an

entirely new system. It could happen through an operating system acquiring the functionality of a browser. It could happen through a browser acquiring the functionality of an operating system. And parts of these could be left as applications and parts could be absorbed lower and closer to the machine and the network. There are a lot of possibilities there. And I truly am not interested on how this will happen, but I really know it has to happen, and I want it to happen for people to have the ease of use and productivity increases I mentioned.	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19
